See email 5/13/2015

**Purpose of Use**

Present Irrigation  
Proposed Irrigation, frost protection, heat control AND FISH/WILDLIFE ENHANCEMENT

see Oct 24, 2014  
w/13 Engr  
Letter

Does the proposed use serve to preserve or enhance wetlands habitat, fish and wildlife resources, or recreation in or on the water (See Water Code section 1707)? \_\_\_\_\_

• GIVE REASON FOR PROPOSED CHANGE: To describe the project as it is being operated.

• WILL THE OLD POINT OF DIVERSION OR PLACE OF USE BE ABANDONED? Yes (See Attachment #1 of \_\_\_\_\_  
(yes/no) Environmental Info. form)

• WATER WILL BE USED FOR Irrigation, frost protection, heat control PURPOSES.

I (we) have access to the proposed point of diversion or control the proposed place of use by virtue of? Written agreement  
(ownership, lease verbal or written agreement)

Are there any persons taking water from the stream between the old point of return flow and the new point of return flow? No

If by lease or agreement, state the name and address of party(s) from whom access has been obtained. \_\_\_\_\_

Give name and address of any person(s) taking water from the stream between the present point of diversion or rediversion and the proposed point of diversion or rediversion, as well as any other person(s) known to you who may be affected by the proposed change.

See files of SWRCB

**THIS CHANGE DOES NOT INVOLVE AN INCREASE IN THE AMOUNT OF THE APPROPRIATION OR SEASON OF USE.**

I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief.

 Petition for Change  Petition for Extension of Time (A13384)

Before the State Water Resources Control Board (SWRCB) can approve a petition to change your water right permit or a petition for extension of time to complete use, the SWRCB must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

**1. DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED**

For a petition to change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

3. Project Description

Petitioner proposes to increase the authorized place of use under all rights to the same 428 acres of existing vineyards on the Gallo Glass Company, Twin Valley Ranch which were developed from 1995 to 2004, as shown on the map to accompany the Petition. Petitioner also seeks to change the licensed points of diversion to the single existing offset well that was drilled in 1998 and seeks to add frost protection and heat control as purposes of use.

The amount of water to be used on the requested 428 acre place of use will not exceed the diversion amounts authorized by these Licenses. The increase in place of use will not result in an increase in the amount of water diverted annually as the per acre water demand for the existing vineyard is less than the demand for irrigated pasture, as originally Licensed. Water diverted under each License will be co-mingled on the place of use. As stated above the Point of Diversion and Place of Use will be the same under all four Licenses.

The entire project, including the entire requested place of use, diversion facility, and water distribution system is existing and fully developed (see attached aerial photograph). No further development is requested pursuant to these Petitions. The proposed project involves no changes relative to historical conditions. Accordingly, these Petitions qualify for a Categorical Exemption under Title 14, California Code of Regulations, Section 15301, Existing Facilities, which states the following:

*"Class 1 consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination."*

Based on the foregoing, we are requesting that the State Water Board grant a Categorical Exemption to these Petitions and proceed with further processing as necessary for issuance of revised Licenses.
