[] Petition for Change [] Petition for Extension of Time (A13384)

Before the State Water Resources Control Board (SWRCB) can approve a petition to change your water right permit or a petition for extension of time to complete use, the SWRCB must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

1. DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition to change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

Multiple horizontal lines for providing a description of proposed changes or work remaining to be completed.

[] See Attachment No. 1

d. Have you contacted the California Department of Fish and Game concerning your project? YES NO
If YES, name and telephone number of contact: _____

4. ENVIRONMENTAL DOCUMENTS

a. Has any California public agency prepared an environmental document for your project? YES NO
If YES, submit a copy of the latest environmental document(s) prepared, including a copy of the notice of determination adopted by the California public agency. Public agency: _____

b. If NO, check the appropriate box and explain below, if necessary:
 The petitioner is a California public agency and will be preparing the environmental document.*
 I expect that the SWRCB will be preparing the environmental document.**
 I expect that a California public agency other than the State Water Resources Control Board will be preparing the environmental document.* Public agency: _____

See Attachment No. _____

* **Note:** When completed, submit a copy of the final environmental document (including notice of determination) or notice of exemption to the SWRCB, Division of Water Rights. Processing of your petition cannot proceed until these documents are submitted.

** **Note:** CEQA requires that the SWRCB, as Lead Agency, prepare the environmental document. The information contained in the environmental document must be developed by the petitioner and at the petitioner's expense under the direction of the SWRCB, Division of Water Rights.

5. WASTE/WASTEWATER

a. Will your project, during construction or operation, (1) generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or (2) cause erosion, turbidity or sedimentation?
 YES NO

If YES, or you are unsure of your answer, explain below and contact your local Regional Water Quality Control Board for the following information (See instruction booklet for address and telephone no.):

3. Project Description

Petitioner proposes to increase the authorized place of use under all rights to the same 428 acres of existing vineyards on the Gallo Glass Company, Twin Valley Ranch which were developed from 1995 to 2004, as shown on the map to accompany the Petition. Petitioner also seeks to change the licensed points of diversion to the single existing offset well that was drilled in 1998 and seeks to add frost protection and heat control as purposes of use.

The amount of water to be used on the requested 428 acre place of use will not exceed the diversion amounts authorized by these Licenses. The increase in place of use will not result in an increase in the amount of water diverted annually as the per acre water demand for the existing vineyard is less than the demand for irrigated pasture, as originally Licensed. Water diverted under each License will be co-mingled on the place of use. As stated above the Point of Diversion and Place of Use will be the same under all four Licenses.

The entire project, including the entire requested place of use, diversion facility, and water distribution system is existing and fully developed (see attached aerial photograph). No further development is requested pursuant to these Petitions. The proposed project involves no changes relative to historical conditions. Accordingly, these Petitions qualify for a Categorical Exemption under Title 14, California Code of Regulations, Section 15301, Existing Facilities, which states the following:

“Class 1 consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination.”

Based on the foregoing, we are requesting that the State Water Board grant a Categorical Exemption to these Petitions and proceed with further processing as necessary for issuance of revised Licenses.
