PETITION FOR EXTENSION OF TIME

Cal. Code Regs., tit. 23, § 842

Application Permit

Separate petitions are required for each water right. Incomplete forms may not be accepted. Complete this form if the time previously allowed in your permit within which to complete construction work and/or use of water has either expired or will expire and you require additional time. Provide attachments if necessary.

Water Code section 1396 requires an applicant to exercise due diligence in developing a water supply for beneficial use. The State Water Resources Control Board (State Water Board) will review the facts presented to determine whether: (a) due diligence has been exercised, (b) failure to comply with previous time requirements has been occasioned by obstacles which could not reasonably be avoided, and (c) that satisfactory progress will be made if an extension of time is granted. (Cal. Code Regs., tit. 23, § 844.) If an extension of time is not granted, the State Water Board may initiate formal action to either: (a) issue a license for the amount of water heretofore placed to beneficial use under the terms of the permit, or (b) revoke the permit.

If this is your first extension of time, answer the questions below for the permitted construction and water use development period. If previous extensions have been approved, answer these questions for the most recently approved extension period (for example, if a ten-year extension was previously granted, list the activities completed during the ten-year period).

I (we) request a year extension of time to complete construction work and/or beneficial use of water.

Construction

Estimate the date construction work will begin, list the actions taken toward commencing or completing construction, and list the reasons why construction of the project was not completed.

See Attachment 1.

Insert the attachment number here, if applicable:

Complete Use of Water

List reasons why use of water was not completed within time previously allowed.

The Permittee has not received timely agency approvals required to construct the project or begin diversion of water under Permit 21173 (see Attachment 1).

Insert the attachment number here, if applicable:

REC'D 9-8-2015
CHECK # 79817 - \$850.00
CHECK # 79818 - \$1,000.00

GC

Quantities Diverted

For direct diversion projects, list the cubic feet per second (cfs) or gallons per day (gpd) diverted during the maximum month of use, and the acre-feet per annum (afa) and identify the year this occurred. For storage projects, identify the maximum amount collected to storage and withdrawn for beneficial use in afa and identify the year this occurred.

	Year	Maximum Diversion Rate (cfs or gpd)	Maximum Annual Amount (afa)
Direct Diversion	NA	0	NA
Storage	NA		0
Beneficial Use			0

Insert the attachment number here, if applicable:

Information on Beneficial Uses

Number of Acres Irrigated	0
Number of Houses or People Served	0
Per Capita Residential Water Use During the Maximum 30-day Period (gpd)	0
Extent of Past Use of Water for Any Other Purpose (identify gpd, cfs or afa)	0

Insert the attachment number here, if applicable:

Approximate Amount Spent on Project \$

Water Conservation – If water conservation is required by your permit, provide the information below.

Water Conservation Measures In Effect

List the water conservation measures that are in effect within the place of use.

Beneficial uses have not commenced under this Permit. Permittee also holds License 13593 (Application 27020). The licensed place of use (POU) overlaps, in part, the POU allowed under Permit 21173. Permittee/Licensee grows perennial herbs which are low-water use plants. No overhead (sprinkler) irrigation is used. The majority of water use on the farm is distributed through drip irrigation systems.

Insert the attachment number here, if applicable:

Water Conservation Measures Planned

List the water conservation measures that are feasible within the place of use and the date the measures will be implemented. Identify the quantities estimated to be conserved when the measures are implemented.

The Permittee will continue to use drip irrigation as it has done for irrigation allowed under License 13593.

Insert the attachment number here, if applicable:

All Right Holders Must Sign This Form: I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief. Dated at
