Subject: FW: Sacramento River Ranch transfer petition
Attachments: RE: Sacramento River Ranch - 2009 Drought Water Bank Agreement

Hi Greg,

How are you? We spoke earlier this week after we had heard initially that DWR was not interested in purchasing crop idling water. After that call, we received official notice from DWR that it was interested in buying water created by crop idling during July-September, which is 63% of the water. Thus, we are interested in transferring 121.59 acre feet to the Drought Water Bank through crop idling. With the groundwater substitution transfer (2,631 acre feet), we propose a transfer of 2,752.59 acre feet.

You stated on the call that it was not necessary to amend our petition, and that an email would suffice. Do you need anything else?

Based on these amended numbers, we will send you a check today or tomorrow for \$850 made payable to DFG and \$2,815.78-100=\$2,715.78 made payable to the State Board. Please confirm this is correct.

In addition, I have not contacted MBK re publication, but please let us know what we need to do re publication.

Thanks!
