Governor

**NOTICE OF PETITION FOR TEMPORARY CHANGE  
INVOLVING THE TRANSFER OF UP TO 10,000 ACRE FEET OF WATER  
FROM THE SOUTH FEATHER WATER AND POWER AGENCY  
TO SAN DIEGO COUNTY WATER AUTHORITY  
UNDER PERMITS 1267 AND 2492 (APPLICATIONS 1651 AND 2778)**

Notice is hereby given that on December 22, 2009

South Feather Water and Power Agency  
c/o Michael Glaze, General Manager  
2310 Oro-Quincy Highway  
Oroville, California 95966

filed with the State Water Resources Control Board (State Water Board) a Petition for Temporary Change under Water Code section 1725, et seq. South Feather Water and Power Agency's (SFWPA) petition requests the transfer of up to 10,000 acre-feet (af) of water to San Diego Water Authority for use within its service area. Temporary changes approved pursuant to Water Code section 1725 may be effective for up to one year from the date of approval.

## **DESCRIPTION OF THE TRANSFER**

SFWPA proposes to transfer up to 10,000 af of water under Permits 1267 and 2492 (Applications 1651 and 2778) to the San Diego County Water Authority. To facilitate the transfer, SFWPA proposes to release an additional 10,000 af of water currently stored in Little Grass Valley Reservoir and Sly Creek Reservoir. The water will be used to generate power for up to 18 hours per day at SFWPA's Sly Creek, Woodleaf and Forbestown powerhouses and then spilled at Ponderosa Dam on the South Fork Feather River directly into Oroville Reservoir in June and July 2009. The water would remain in storage in Oroville Reservoir and be available for release to the Feather River thence the Sacramento River thence the San Francisco Bay/ Sacramento-San Joaquin Delta for rediversion at the Clifton Court Forebay between July and December 2010. Once rediverted at the Clifton Court Forebay, water would be delivered to SDCWA. SFWPA's petition also states that water may be delivered to the Metropolitan Water District of Southern California (MWD) or to the Semitropic Water Storage District for groundwater banking. Maps showing the location of the existing points of diversion under Permits 1267 and 2492 are posted online with the copy of this notice at: [http://www.waterboards.ca.gov/waterrights/water\\_issues/programs/applications/transfers\\_tu\\_notices/](http://www.waterboards.ca.gov/waterrights/water_issues/programs/applications/transfers_tu_notices/).

---

*California Environmental Protection Agency*

In the absence of this transfer, the subject 10,000 af of water would remain in storage within Little Grass Valley Reservoir and Sly Creek Reservoir for future marketing to other buyers or use by SFWPA.

### **PROPOSED TEMPORARY CHANGE**

The proposed transfer would temporarily add the Oroville Dam and the Clifton Court Forebay as points of rediversion under Permits 1267 and 2492. SFWPA's Sly Creek, Woodleaf and Forbestown Powerhouses, the service area of SDCWA, the service area of MWD, and the Semitropic Water Storage District would be temporarily added to the place of use of Permits 1267 and 2492. Power generation, salinity control, and water quality control would be temporarily added as purposes of use under Permits 1267 and 2492.

### **PETITIONER'S WATER RIGHTS**

Permit 1267 (Application 1651) authorizes the diversion to storage of up to 109,012 af of water per annum from the South Fork Feather River between October 1 and July 1. Permit 1267 also authorizes the direct diversion from the South Fork Feather River of up to 200 cubic feet per second (cfs) between April 1 and July 1. The point of diversion to storage for Permit 1267 is located at the Little Grass Valley Dam. Points of rediversion include the South Fork Diversion Dam, Sly Creek Dam, Lost Creek Dam, Forbestown Dam, and Ponderosa Dam. The water is used for irrigation and domestic purposes within the authorized place of use, and for recreational purposes within Little Grass Valley Reservoir, Sly Creek Reservoir, Lost Creek Reservoir, and Ponderosa Reservoir.

Permit 2492 (Application 2778) authorizes the diversion to storage of up to 25,000 af of water per annum from Lost Creek between October 1 and June 1. Permit 2492 also authorizes the direct diversion from Lost Creek of up to 50 cfs between April 1 and June 1. The point of diversion for Permit 2492 is located at the Sly Creek Dam and the point of rediversion is located at the Lost Creek Dam. The water is used for irrigation and domestic purposes within the authorized place of use, and for recreational purposes within Sly Creek Reservoir, Lost Creek Reservoir, and Ponderosa Reservoir.

Operational studies prepared by PG&E for SFWPA estimate that, absent the proposed transfer, the combined carryover storage in Little Grass Valley Reservoir and Sly Creek Reservoir would be 60,000 af. SFWPA states that the proposed transfer of up to 10,000 af of water will not impact its ability to provide either irrigation or domestic deliveries to its customers. Additionally, SFWPA's petition indicates that it intends to enter into an agreement with the Department of Water Resources to ensure that future

refill of water transferred from storage in Little Grass Valley Reservoir and Sly Creek Reservoir does not adversely impact the State Water Project.

### **COMPLIANCE WITH CALIFORNIA ENVIRONMENTAL QUALITY ACT**

Temporary changes involving the transfer of water that was previously stored are exempt from the requirements of the California Environmental Quality Act (CEQA). However, the State Water Board must consider potential impacts to other legal users of the water and to fish, wildlife, or other instream beneficial uses.

### **STATE WATER RESOURCES CONTROL BOARD'S STATUTORY PROVISIONS**

Pursuant to Water Code sections 1725, et seq., the State Water Board is authorized to issue temporary change orders, allowing the transfer or exchange of water or water rights after completing an evaluation and finding that the proposed temporary changes:

1. Involve only water that would otherwise have been consumptively used, stored, or conserved pursuant to Water Code section 1011, by Permittee;
2. Would not injure any legal user of the water; and
3. Would not unreasonably affect fish, wildlife, or other instream beneficial uses.

If the State Water Board cannot satisfy, in a timely manner, the provisions of Water Code section 1725, et. seq., then the State Water Board may deny the petition or schedule and notice a hearing regarding the proposed transfer or exchange of water.

### **OPPORTUNITY FOR COMMENT**

Pursuant to the requirements outlined above, the State Water Board is seeking information to assist in the evaluation of the proposed temporary change of water rights. Any person may file comments concerning the petition for temporary change. The comments must address the required findings set forth above. The petitioner has the burden of establishing that the proposed temporary change will not injure any legal user of water, or unreasonably affect fish, wildlife, or instream beneficial uses. If the State Water Board determines that the petitioner has established a prima facie case, the burden of proof then shifts to the party that has filed comments (Water Code section 1727). While such a determination has not been made in this case, commenters should provide sufficient information to support claims of injury or effects on fish, wildlife, or other instream uses.

Due to the relative brevity of the temporary transfer process, the Division of Water Rights (if necessary) may request that the petitioner submit additional information during the comment period. Any such requests and any additional information submitted by the petitioner regarding this temporary change **during the comment period** will be posted with this notice on the Division of Water Rights' website at [http://www.waterboards.ca.gov/waterrights/water\\_issues/programs/applications/transfers\\_tu\\_notices/](http://www.waterboards.ca.gov/waterrights/water_issues/programs/applications/transfers_tu_notices/). Potential commenters are strongly urged to check the website for such information prior to filing a comment.

Comments filed in response to this notice must be received in the office of the State Water Board's Division of Water Rights, at the first address listed below by **2:00 p.m. on April 12, 2010**. Additionally, a copy of the comments must be filed with SFWPA. **Comments must be accompanied by proof of service of a separate copy of the materials on the petitioner.** Interested parties are encouraged to file comments by FAX and to notify the following contact persons by telephone of any materials that will be submitted. An original copy of all materials, however, must be received for the State Water Board to consider your comments.
