ENVIRONMENTAL INFORMATION FOR PETITIONS

This form is required for all petitions.

Before the State Water Resources Control Board (State Water Board) can approve a petition, the State Water Board must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition for change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

Petition for Change under A018085 / P13856

Placer County Water Agency proposes to transfer 20,000 acre-feet (AF) of water currently stored in its Middle Fork Project (MFP) reservoirs on the Rubicon and American Rivers to the Westlands Water District (WWD) for irrigation use within the service area of Westlands. To accomplish this transfer, the following temporary changes in the place of use and points of rediversion under PCWA's MFP water right permit are needed:

- 1) Allow re-diversion of transfer water at the Harvey O. Banks Pumping Plant and/or State Water Project's Clifton Court Forebay.
- 2) Allow use of transfer water for irrigation within the WWD service area.

No change in the present place of use is proposed. PCWA proposes to temporarily add the service area of the CVP as an additional place of use in order to facilitate the temporary water transfer to WWD. The service area of the CVP is shown on Map 214-208 – 12581 on file with the Division under Application 5626.

*Refer to Attachment A for a detailed description of project operational changes, including changes in how the water will be used within the WWD POU.
