Dear Hearing Officers Doduc and Marcus:

On July 7, 2017, you were informed of the agreement between the Department of Water Resources ("DWR") and the Sacramento Valley Water Users group ("SVWU") to modify the production date associated with the Subpoena *Duces Tecum* issued on June 29, 2017 for ten categories of documents referenced in the biological opinions signed by the U.S. Fish and Wildlife Service and the National Marine Fisheries Service (jointly the "BiOps").

This agreement provides for a two-part production of documents based upon an assessment of how quickly DWR could locate and confirm the accuracy of the categories of documents. Document categories (d) and (i) and a specific component of category (b) referred to in the agreement as the BiOp Resolution Log are being served upon all parties today, July 10, 2017. The remaining document categories, including the complete contents of category (b), have a second production deadline of July 17, 2017.

Sincerely,

A handwritten signature in blue ink, appearing to read "James Mizell".
