Notice of Assignment (Over)

License for Diversion and Use of Water

LICENSE 1228

PERMIT 2500

APPLICATION 4878

THIS IS TO CERTIFY, That 12/8/34 factar Maurice Rhine
A. Grunauer, Louis Kroner and H. Grunauer of
Tracy, California

be 70 made proof to the satisfaction of the Division
of Water Resources of California of a right to the use of the waters of Old River in San Joaquin County

tributary of San Joaquin River

for the purpose of agricultural use

under Permit 2500 of the Division of Water Resources and that said right to the use of said waters has
been perfected in accordance with the laws of California, the rules and regulations of the Division of Water Resources
and the terms of the said permit; that the priority of the right herein confirmed dates from October 24, 1924

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited
to the amount actually beneficially used for said purposes and shall not exceed twenty-nine and eighty-
seven hundredths (29.87) cubic feet per second from about March 1st to about
December 1st of each season. In case of rotation the equivalent of such contin-
uous flow allowance for any thirty day period may be diverted in a shorter time
if there be no interference with other vested rights. } 27

The point of diversion of such water is located sixteen hundred twenty (1620) feet in a
Northwesterly direction from a point where the cut to the Westside Irrigation
District pumping plant intersects Old River, and being within the NE $\frac{1}{4}$ of NE $\frac{1}{4}$
of projected Section 5, T 2 S, R 4 E, M.D.B. & M.

A description of the lands or the place where such water is put to beneficial use is as follows:

2514.6 acres within Sections 26, 27, 28, 29, 30, 34, 35 and 36, T 1 S,
R 4 E, M.D.B. & M. and Sections 2 and 3, T 2 S, R 4 E, M.D.B. & M. as shown on
map filed with the Division of Water Resources January 27, 1925 entitled "Map
of the Lands of A. Grunauer, L. Kroner and H. Grunauer on the Fabian Tract".

As there is a possibility that there will not be sufficient water in
San Joaquin River during the latter part of the irrigation season to satisfy
all requirements, this license is issued subject to the express condition that
the use hereunder may be regulated by the Division of Water Resources during such
periods of water scarcity to the end that such use will not interfere with rights
under prior applications.

000090

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of
diversion herein specified and to the lands or place of use herein described.

This license is granted and said appropriator takes all rights herein mentioned subject to the terms and conditions set forth in Section 20 of Chapter 586, Statutes 1913, which is as follows:

Sec. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be effective for such time as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriated, but no longer; and every such permit or license shall include the conservation of conditions therein which in substance shall include all of the provisions of this section and likewise the extension that any appropriator of water, on whom said permit or license may be issued, shall take the same subject to such conditions as therein expressed; provided, that if, at any time after the expiration of twenty years after the granting of a license, the state, or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the works and property occupied and used under said license and the works built or constructed for the enjoyment of the rights granted under said license; and in the event that the said state, city, city and county, municipal water district, irrigation district, lighting district or political subdivision of the state so desires to purchase and the said owner of said works and property can not agree upon said purchase price, said price shall be determined in such manner as is now or may hereafter be determined in eminent domain proceedings. If it shall appear to the state water commission at any time after a permit or license is issued as in this act provided that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has not used the water granted under said permit or license to the useful or beneficial purpose for which the permit or license was granted, or that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has failed to observe any of the terms and conditions in the permit or license as issued, then and in that case the said commission, after due notice to the permittee, licensee, or the heirs, successors or assigns of such permittee or licensee, and a hearing thereon, may revoke said permit or license, and declare the water to be unappropriated and open to further appropriation in accordance with the terms of this act. And the findings and declaration of said commission shall be deemed a declaration of eminent domain proceedings, and no action brought to modify or set aside such finding or declaration shall be commenced within thirty days after the service of notice of said revocation on said permittee or licensee, his heirs, successors or assigns. And every license or permit under the provisions of this act if he occupies such permit or license shall except the same under the conditions precedent that no value whatsoever in excess of the actual amount paid to the state therefor shall at any time be assigned to or claimed for any permit or license granted or issued under the provisions of this act, or for any rights granted or acquired under the provisions of this act, in respect to the regulations by any competent public authority of the service or the price of the service to be rendered by any permittee or licensee, his heirs, successors or assigns or by the holder of any rights granted or acquired under the provisions of this act, or in respect to any valuation for purposes of sale or purchase, whether through condemnation proceedings or otherwise, by the state or any city, city and county, municipal water district, irrigation district, lighting district or any political subdivision of the state, of the rights and property of any permittee or licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right, irrespective of whether they are first in time; provided, however, that such application for a permit or the granting thereof of permission to any municipality to appropriate water, shall not authorize the appropriation of any water for other than municipal purposes; and provided, further, that where permission to appropriate is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs thereof, that appropriate pending the application of the entire appropriation permitted, the state water commission shall have the power to issue permits for the temporary appropriation of the excess of such permitted appropriation over and above the quantity being applied from time to time by such municipality; and provided, further, that in the event of such permitted appropriation, the state water commission shall authorize such municipality to become as to such surplus a public utility, subject to the jurisdiction and control of the railroad commission of the State of California for such period or periods from and after the date of the issuance of such permission to appropriate, as may be allowed for the application to municipal use of the entire appropriation permitted; and provided, further, that when such municipality shall desire to use the additional water rendered valuable for said purposes, to the person, firm or corporation which constructed said facilities for taking, conveying and storing such additional water rendered valuable for said purposes, to the person, firm or corporation which constructed said facilities for the temporary use of said excess waters, and which compensation, if not agreed upon between the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of property taken by and through eminent domain proceedings.

THIS IS TO CERTIFY, That Mrs. Annie Fabian, A. Greenawald and the Estate of Fred Tothman of Tracy, California

have made proof to the satisfaction of the Division of Water Resources of California of a right to the use of the waters of Old River in San Joaquin County

tributary of San Joaquin River

for the purpose of agricultural use under Permit 2329 of the Division of Water Resources and that said right to the use of said waters has been perfected in accordance with the laws of California, the rules and regulations of the Division of Water Resources and the terms of the said permit; that the priority of the right herein confirmed dates from October 24, 1924;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to the amount actually beneficially used for said purposes and shall not exceed seventeen and five tenths (17.5) cubic feet per second from about March 1st to about December 1st of each season. In case of rotation the equivalent of such continuous flow allowance for any thirty day period may be diverted in a shorter time if there be no interference with other vested rights. 27

copy by order of H 215, 10-22-34

The point of diversion of such water is located South sixty six degrees thirty minutes West (S. 66° 30' W) sixty five hundred seventy (6570) feet from center line of canal at its point of intersection with the west boundary line of licensees property and being within the NE 1/4 of NE 1/4 of projected Section 8, T 2 S, R 4 E, M.D.B. & M.

A description of the lands or the place where such water is put to beneficial use is as follows:

1422.8 acres within Sections 29, 30 and 31, T 1 S, R 3 E, M.D.B. & M.; Sections 25 and 26, T 1 S, R 4 E, M.D.B. & M. and Section 1, T 2 S, R 4 E, M.D.B. & M., and shown on map entitled "A Portion of Rancho El Peonadero" filed January 27, 1928, in the office of the Division of Water Resources.

As there is a possibility that there will not be sufficient water in San Joaquin River during the latter part of the irrigation season to satisfy all requirements, this license is issued subject to the express condition that the use hereunder may be regulated by the Division of Water Resources during such periods of water scarcity to the end that such use will not interfere with rights under prior applications.

This license is granted and said appropriator takes all rights herein mentioned subject to the terms and conditions set forth in Section 20 of Chapter 116, Statutes 1913, which is as follows:

Sec. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be effective for such time as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purposes for which said water was appropriated, but no longer; and every such permit or license shall include the appropriation of conditions therein which in substance shall include all of the provisions of this section and likewise the agreement that any appropriator of water, of whom said permit or license may be issued, shall take the same subject to such conditions as therein expressed; provided, that if, at any time after the expiration of every year after the granting of a license, the state, or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the lands and property owned and used under said license and the works built or constructed for the enjoyment of the rights granted under said license, and in the event that the said owner of said works and property and not upon said permits, licenses, or said water shall be determined to such owner as in now or may hereafter be determined in eminent domain proceedings. If it shall appear to the state water commission at any time after a permit or license is issued as in this act provided that the permit or license, or the heirs, successors or assigns of said permit or license, has not yet the water granted under said permit or license to the useful or beneficial purpose for which the permit or license was granted, or that the permit or license, or the heirs, successors or assigns of said permit or license, has failed to observe any of the terms and conditions in the permit or license as issued, then and in that case the said commission, after due notice to the permit or license, or the heirs, successors or assigns of such permit or license, and a hearing thereon, may revoke said permit or license, and declare the water to be unappropriated and open to further appropriation in accordance with the terms of this act. And the findings and declaration of said commission shall be deemed to be prima facie correct until modified or set aside by a court of competent jurisdiction; provided, that any action brought to so modify or set aside such findings or declaration must be commenced within thirty days after the service of notice of said revocation on said permit or license, his heirs, successors or assigns. And every license or permit under the provisions of this act if he renounces such permit or license shall occupy the same under the conditions provided that no value whatsoever in excess of the actual amount paid to the state therefor shall at any time be claimed as or claimed for any permit or license granted or issued under the provisions of this act, or for any rights granted or acquired under the provisions of this act, in respect to the regulations by any competent public authority of the service or the price of the service to be rendered by any permit or license, his heirs, successors or assigns or by the holder of any rights granted or acquired under the provisions of this act, or in respect to any valuation for purpose of sale or purchase, whether through condemnation proceedings or otherwise, by the state or any city, city and county, municipal water district, irrigation district, lighting district or any political subdivision of the state, of the rights and property of any permit or license, or the possessor of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right, irrespective of whether they are first in time; provided, however, that such application for a permit or the granting thereof of permission to any municipality to appropriate water, shall not authorize the appropriation of any water for other than municipal purposes; and provided, further, that where permission to appropriate is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs thereof, that pending the application of the entire appropriation permitted, the state water commission shall have the power to lease pending the same, the water in excess of the needs of such permitted appropriation over and above the quantity being applied from time to time by such municipality; and provided, further, that in lieu of the granting of such temporary permits for appropriation, the state water commission may authorize such municipality to become so in such public or public utility, subject to the jurisdiction and control of the railroad commission of the State of California for each period or periods from and after the date of the issuance of such permission to appropriate, as may be allowed for the application to municipal use of the entire appropriation permitted; and provided, further, that when such municipality shall desire to use the additional water granted in its said application it may do so upon making full compensation for the facilities for taking, conveying and storing such additional water rendered valuable for said purposes, to the person, firm or corporation which constructed said facilities for the temporary use of said excess water, and which compensation, if not agreed upon between the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of property taken by and through eminent domain proceedings.

All rights and privileges under this license including method of diversion, method of use and quantity of water
 diverted are subject to the continuing authority of the Department acting through the State Engineer in accordance
 with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or
 unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from
 time to time by the State Engineer.

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of diversion
 herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Department.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property can not agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
