Notes: Baseline data are from the 1997 Delta Protection Commission inventory of Delta facilities. The inventory was updated in 2005, but only updated facility maps and summary data are available. Within the Environmental Impact Report/Environmental Impact Statement, the updated information was used to produce facility maps and summary tables presented in the text. However, the 1997 inventory remains the best available source for the detailed information provided in this appendix.

N/A = not available
