

SHR-351

**Statement of Verification of Receipt of Data on 8-25-2016 via EMAIL Titled
CPOD_Scenarios_Dry_Critical_Delta_flows_june_oct.pdf, labeled SHR-350 and also
the same document, revised, of the same name Received 8-26-2016 via EMAIL and labeled as SHR-352,
along with the email series related to these documents, labeled as SHR-353.**

Statement of receipt of data files:

SHR-350 was received by me early morning (approximately 3:00 am) 8-26-2016 Via the email address of James Mizell, DWR (James.Mizell@water.ca.gov) and thereafter discussed in a brief meeting in Sacramento with Mr. Mizell, and DWR personell Tera Smith and Cathy (last name unrecorded) at approximately 8:15 to 8:35 on 8-26-16, in Sacramento on the 2nd Floor of the CAL-EPA building. Mr. Mizell represented that the purpose of the data was is to fulfill SHR request for Sacramento River flow data. SHR request for Sacramento River flow data, and split of flows between the waterways below the intakes proposed, was expressed during questioning of Operations for WaterFix, by submission of a fill-in form which was submitted as SHR-23. DWR Waterfix panel was directed by hearing Chair Dudoc on 8-19-2016 to provide the data to me, and to report back to hearing Chair by 8-26-2016 that data had been provided. With limited time to review the data contained in SHR-350, I added the document to my questions of modeling panel on 8-26-2016. At the time of my opportunity to question modeling staff about the flow data provided, I was not aware of the fact Mr. Mizell had emailed a revised version of the data at at approximately 9:30 am on 9-26-16, and Mr. Mizell did not bring up the revised document existence during my questioning to the modeling panel. In any case, the revised document is also being submitted as evidence, and is labeled SHR-352.

I, Nicole S. Suard, Esq certify that SHR-350 and SHR-352 are exact copies of the files/data provided to me by Mr. Mizell, with the exception that the reference to Exhibit number for Snug Harbor Resorts, LLC have been added to the top left corner of the first page of each document. In the interest of full disclosure to all interested parties regarding the communication between DWR and SHR representatives, the series of emails related to the request for data and DWR response has been converted to pdf format and submitted as SHR-353.
