

Robert L. Granberg, P.E.

PROFESSIONAL HISTORY

11/13-Present

ASSISTANT DIRECTOR OF MUNICIPAL UTILITIES, City of Stockton

Assist the Director of Municipal Utilities in the administration of water, wastewater and stormwater enterprises with a current \$120M operation and \$29M CIP budget and 217 authorized full time employees. Responsible lead over the Engineering, Wastewater Treatment Plant Operations and Maintenance Divisions. Currently directing a \$150M wastewater treatment plant upgrade program.

05/04-11/13

DEPUTY DIRECTOR OF MUNICIPAL UTILITIES, City of Stockton

Under general direction of the Director of Municipal Utilities, managed the water enterprise serving 48,000 metered connections. Responsibilities included water treatment and distribution operations, long-term water supply planning, purchased water contract management, water conservation, capital improvement planning and regulatory compliance. Planned, coordinated and managed a staff of 50 with an annual operating budget of \$40M. Successfully delivered a \$220M surface water supply project, which included a river intake, 18 miles of raw and treated water pipelines and 30 mgd water treatment plant. Accomplished tasks included CEQA/NEPA documentation; water rights; local, state and federal permitting; innovative design and construction delivery method; project financing and land acquisition.

12/00-05/04

SENIOR CIVIL ENGINEER, City of Modesto, Department of Engineering and Transportation

Under general direction of the Deputy Director of Transportation, managed the Development Services Section staff of six responsible for improvement plan, parcel, tentative and final map review and encroachment permitting of development related projects. Served as co-chairperson of an inter-departmental development review team. Responsible for maintaining and updating Modesto's Standard Specifications. Managed an annual operating budget of \$400,000. Developed staff in municipal government service delivery and accountability.

Under general direction of the Deputy Director of Engineering, managed and supervised the Construction Administration Section staff responsible for construction administration, inspection and surveying of capital improvement and development related construction projects.

08/98-12/00

SENIOR CIVIL ENGINEER, City of Stockton, Municipal Utilities Department, Engineering Services Division

Under the general direction of the Assistant Director of Municipal Utilities, managed the Engineering Services Construction Section delivering a \$55M wastewater treatment plant upgrade and several utility capital improvement projects. Negotiated and managed design and construction management professional services contracts, prepared annual CIP budgets, assigned and managed workflow within the Division and developed staff capabilities in construction management procedures and inspection methods.

03/97-07/98

CONSTRUCTION ENGINEER, City of Salem, Oregon Department of Public Works, Engineering

Under general direction of the City Engineer, managed the Engineering Construction Section providing public works inspection for capital improvement and development

projects. Supervised a staff of ten construction inspectors. Sole responsibility for construction contract administration for numerous capital improvement projects. Evaluated and implemented enhancements to inspection methods and procedures.

06/93-03/97

PROJECT MANAGER, City of Los Angeles, Department of Airports, Engineering Bureau

Managed environmental program for underground fuel storage tank removal and soil and groundwater remediation projects. Managed the Storm Water Pollution Prevention Plan (SWPPP) Program for industrial and construction activities at Los Angeles, Van Nuys and Ontario Airports.

08/89-06/93

PROJECT ENGINEER, City of Los Angeles, Department of Public Works, Engineering Bureau

Responsible for the design of several projects at the City of Los Angeles Hyperion Wastewater Treatment Plant. Researched project needs, developed plans and specifications, directed the efforts of support staff and consultants and provided engineering support to construction management staff.
