California EcoRestore

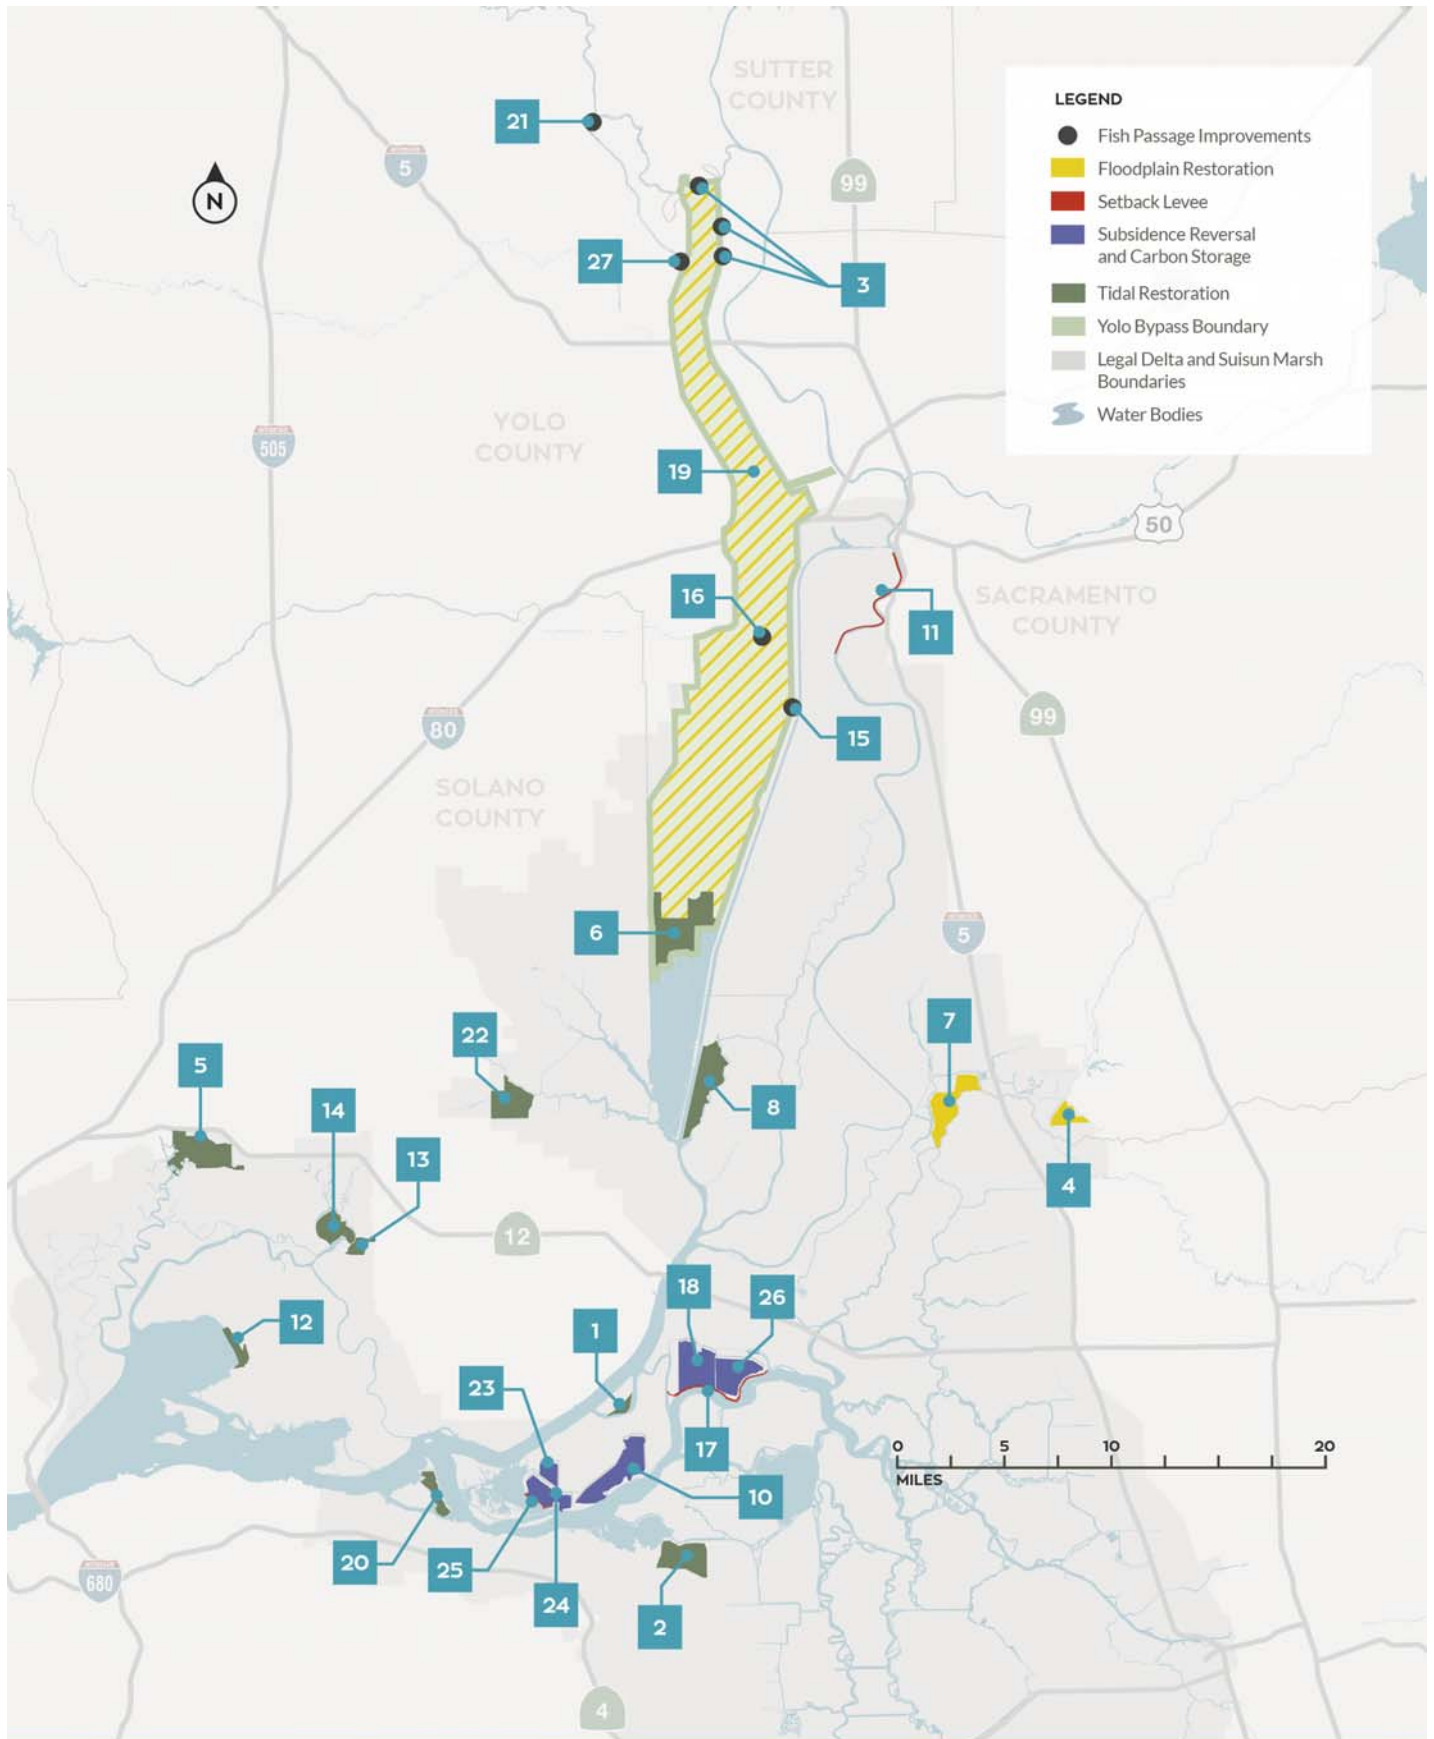

California EcoRestore is a California Natural Resources Agency initiative implemented in coordination with state and federal agencies to advance the restoration of at least 30,000 acres of Sacramento-San Joaquin Delta (Delta) habitat by 2020. Driven by world-class science and guided by adaptive management, California EcoRestore will pursue habitat restoration projects with clearly defined goals, measurable objectives, and financial resources to help ensure success. The types of habitat targeted include tidal wetlands, floodplain, upland, riparian, fish passage improvements and others.

Restoration Targets

The California EcoRestore program is focused on implementing a comprehensive suite of habitat restoration actions to support the long-term health of the Delta and its native fish and wildlife species. Specifically the program aims to achieve:

Projects Map

2017 / 2018 (Target Construction Start Dates)		2019+ (Target Construction Start Dates)		COMPLETED (Construction Completed)	
1	Decker Island	13	Arnold Slough	21	Knights Landing Outfall Gate
2	Dutch Slough	14	Bradmoor Island	22	Lindsey Slough
7	Fremont Weir Adult Fish Passage	15	Lisbon Weir	23	Sherman Island: Mavherry Farms

3	Modification	15	Lower Putah Creek Realignment	23	Sherman Island: Mayberry Slough
4	Grizzly Slough	16	Lower Putah Creek Realignment	24	Sherman Island: Whale's Mouth
5	Hill Slough	17	Twitchell Island: Levee	25	Sherman Island: Mayberry Slough
6	Lower Yolo Ranch	18	Twitchell Island: West End	26	Twitchell Island: East End
7	McCormack Williamson Tract	19	Yolo Bypass Floodplain Restoration	27	Wallace Weir Fish Rescue Facility
8	Prospect Island	20	Winter Island		
9	Fish Restoration Program RFP Projects (not on map)				
10	Sherman Island: Whale's Belly Wetland				
11	Southport Levee Improvement				
12	Tule Red (2016)				

Progress Tracking

The California EcoRestore program is comprised of many projects at various stages of planning, permitting and construction. For tracking progress these phases are defined as:

- **Planned:** sites owned or partnered with the State with planning and analysis is underway
- **In Permitting:** sites that have completed necessary planning to initiate permitting with State and Federal regulatory agencies
- **Under Construction:** sites with necessary permits and under construction
- **Completed:** sites with construction completed and transitioning to monitoring and maintenance
