

Stormwater Runoff Water Quality Newsletter Index

Our Stormwater Runoff Water Quality Newsletter is a periodic (monthly to bi-monthly), no-cost, email-distributed discussion of current topics and issues pertaining to evaluating and managing the water quality impacts of urban, highway, and rural stormwater runoff, and related topics. First issued in June 1998, this Newsletter is now in its 14th year of publication and is distributed to about 8,000 individuals. This index provides a guide to the locations within the Newsletter archives wherein discussions of various aspects of noted topics can be found. Current and past issues are available at <http://www.gfredlee.com/newsindex.htm>.
