Comments	<p><i>The SF Bay Estuary is a critical ecological habitat. The ecology of the bay area, wildlife, plants, and the land it self, depends on the healthy flow of water. I urge you to stand for the rivers that sustain the Bay-Delta Estuary in Phase 1 and Phase 2 of the water quality control plan. The current plan leaves only have the water in the rivers,</i></p> <p><i>THIS WILL DESTROY THE ECOLOGY OF THE BAY FOR DECADES TO COME.</i></p> <p><i>This will create catestrophic effects for species like Chiook Salmon. Why are we endangering keystone species.</i></p> <p><i>I URGE YOU TO FIND ALTERNATIVES THAT WILL BE ECOLOGICALLY SOUND.</i></p> <p><i>We must think about the entire system and the impact, upstream, and down stream.</i></p> <p><i>Thank you,</i></p>
