**Subject:** State Water Board pending action

**Categories:** Yellow Category

To whom it may concern:

My name is Daniel Clendenin age 64 and life time farmer in Merced. I strongly oppose the pending action to release additional water to the ocean with the goal of improving fish populations. Before taking such drastic action, as releasing a natural resource that is in limited supply and is so vital to the economic health of the Central Valley, I hope that you will embrace scientific studies that show the advantages of improving spawning areas and not high river flows as a means of improving salmon numbers.
