Subject: Comment Letter - Revisions to Proposed Bay-Delta Plan Amendments

Jeanine Townsend - Clerk to the Board,

First I want to thank the Board and your service to the state of California, You carry out a necessary and important responsibility, Thanks

However I am concerned citizen and resident of Stanislaus County and this state. I believe and I am deeply concerned that the board has significantly underestimated the impact economically to our region that will occur due to the plan amendment requirement of unimpaired river water flows of 40% Feb.-June from the Tuolumne, Stanislaus and Merced rivers.. Our region is already struggling economically and these increased unimpaired water flows of 40% Feb-June I believe will only make the problem much worse economically for our area. I believe the impact to agriculture will be significant. Our region significantly depends on this agriculture economy.

I strongly encourage the board to consider this concern now and in the future as the proceed forward with making a final decision on this plan amendment and other future related decisions. I encourage the board if they do approve this amendment in August that they do not raise the unimpaired water flows above 40% and if possible keep them in the lower range of the 30%-50% acceptable range.

Thanks for your time,

Sincerely

Kevin Flora
