WATER DIVERSION CURTAILMENT NOTICE

Forestar Real Estate Group
PO Box 10
Antioch, CA 94509-0901

NOTICE OF CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT Permit 19418 (APPLICATION NO. A017001)

Your Permit 19418 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 19418 FROM AUGUST 2, 2012 THROUGH AUGUST 31, 2012, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than August 15, 2012 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriative water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of

diversion to determine compliance with this Notice.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have questions or need assistance, please contact Dustin La Vallee at (916) 445-5961 or by email at: dlavallee@waterboards.ca.gov. WATER DIVERSION CURTAILMENT NOTICE

Accornero & Sons Investments
c/o Giulio Accornero, Jr.
700 Vine St.
Menlo Park, CA 94025

NOTICE OF CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT License 13436 (APPLICATION NO. A025999)

Your License 13436 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 13436 FROM AUGUST 2, 2012 THROUGH AUGUST 31, 2012, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than August 15, 2012 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriative water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your

point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

WATER DIVERSION CURTAILMENT NOTICE

Lion Bros. Farms
c/o Jeff A. Lion
PO Box 1350
Selma, CA 93662

NOTICE OF CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT Permit 19615 (APPLICATION NO. A027546)

Your Permit 19615 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 19615 FROM AUGUST 2, 2012 THROUGH AUGUST 31, 2012, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than August 15, 2012 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriative water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your

point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have questions or need assistance, please contact Dustin La Vallee at (916) 445-5961 or by email at: dlavallee@waterboards.ca.gov. WATER DIVERSION CURTAILMENT NOTICE

Armelim De Sousa, et al
3030 S. Central Avenue
Turlock, CA 95380

NOTICE OF CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT License 13034 (APPLICATION NO. A028539)

Your License 13034 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 13034 FROM AUGUST 2, 2012 THROUGH AUGUST 31, 2012, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than August 15, 2012 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriative water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of

diversion to determine compliance with this Notice.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have questions or need assistance, please contact Dustin La Vallee at (916) 445-5961 or by email at: dlavallee@waterboards.ca.gov. NOTICE OF CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT License 13057 (APPLICATION NO. A028622)

Your License 13057 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 13057 FROM AUGUST 2, 2012 THROUGH AUGUST 31, 2012, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than August 15, 2012 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriative water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your

point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12).
