Comments: Thank you for the opportunity to comment. I appreciate all of California's efforts to conserve water. My neighborhood has tried very hard to comply. Lots of fake grass, rock, a lot of dirt too. I have put in two new toilets, water conserving shower heads and rain buckets galore. I wait to water what plants that are still alive before 8:00 a.m. and after 6:00 p.m. I know that our efforts have allowed San Diego County reservoirs, in particular, San Vicente, to have more than enough water for quite some time. I would really like Governor Brown and the board to consider letting San Diego be able to relax our conservation efforts some. The percentage I don't know. I just know that I wash clothes once a week and towels and sheets once a month. I am on a fixed income and would appreciate some kind of break as we are expecting a rate increase from the Helix water District(of which I am apart of). Thank you for letting me send this.
