
State Water Resources Control Board

December 27, 2022

ADDENDUM 1 TO ORDER WR 2022-0167-DWR: TEMPORARY SUSPENSION OF CURTAILMENTS IN SHASTA RIVER WATERSHED (PRIORITY DATES APRIL 1, 1885 TO MARCH 1, 1850)

To: Scott River Watershed and Shasta River Watershed Water Right Holders (sent to water right holders for which the Board has email addresses) and Interested Parties on Scott-Shasta Drought E-mail List

As further described below, this Addendum amends Order WR 2022-0167-DWR to suspend curtailments of all water rights subject to Order WR 2022-0167-DWR (Attachment A) in the Shasta River watershed (priority dates of April 1, 1885 to March 1, 1850).

The State Water Resources Control Board (State Water Board) issued Curtailment [Order WR 2021-0167-DWR](#) on September 13, 2022, conditionally curtailing water rights in the Shasta Adjudication¹ to a priority date of March 1, 1850, in order to meet the required drought emergency minimum flows specified in the [Emergency Regulation](#) adopted by the State Water Board. (Cal. Code Regs., tit. 22, §§ 875-875.9.)

From September 13, 2022 (issuance date of Order WR 2022-0167-DWR) to November 22, 2022, about 66 percent of time daily flows at the [United States Geological Survey \(USGS\) Yreka gage](#) have been lower than the minimum flow requirements and the State Water Board elected to keep conditional curtailments in place during this time. However, an increasing flow trend has been observed since the end of irrigation seasons in late September 2022 and late October 2022. After November 22, 2022, flows have generally been higher than the minimum flow requirements and curtailments are being actively managed by the Scott River and Shasta River Watermaster District (Watermaster) under a previously-issued curtailment order for more junior water rights.

Accordingly, the State Water Board is suspending **all curtailments issued in Order 2022-0167-DWR**, which includes adjudicated water rights senior to the priority date of April 1, 1885, and junior to the priority date of March 1, 1850. This addendum remains in effect until otherwise amended. **Water diverters in Attachment A shall monitor and**

¹ Judgement and Decree entered on December 29, 1932, in Siskiyou County Superior Court Case No. 7035, In the Matter of the Determination of the Relative Rights, Based Upon Prior Appropriation, of the Various Claimants to the Waters of Shasta River and its Tributaries in Siskiyou County, California.

record the amounts of water diverted during this time period (i.e., during the suspension of curtailments). Water diverters in Attachment A shall report their water use and purpose of use, as requested, to the Watermaster and State Water Board. **The suspension of curtailment under this Addendum does not provide for diversions for inefficient stock watering. Parties are reminded that the [Emergency Regulation](#) contains a [prohibition](#) against inefficient livestock watering during September through March. This [prohibition](#) is in effect whether or not your water right is curtailed.** (Cal. Code Regs., tit. 23, § 875.7.) The State Water Board intends to follow up with individuals who appear to be in violation of the inefficient livestock watering provision.

The State Water Board will be monitoring weather forecasts and stream gages to determine if all or some portion of the curtailments covered by Order WR 2022-0167-DWR should be reimposed in the future. To stay informed on future updates related to curtailments and the ongoing the Emergency Regulation effort in the Scott River and Shasta River watersheds, please:

1. Monitor your email if you have subscribed to the **“Scott-Shasta Drought”** email list under “Water Rights”; and/or
2. Visit our **Scott River and Shasta River Drought Response website** (https://www.waterboards.ca.gov/drought/scott_shasta_rivers/). If an email list notice is issued on the weekend, the website will not be updated until the following Monday due to limitations on implementing such updates.

If you have questions regarding this addendum, please contact staff by email at: ScottShastaDrought@waterboards.ca.gov or leave a message at our dedicated Scott River and Shasta River Drought phone line at: (916) 327-3113.

Sincerely,

Erik Ekdahl, Deputy Director
Division of Water Rights

**Summary of Water Rights on Julian, Willow, and Yreka Creeks
Associated with Order WR 2022-0167-DWR Issued for Shasta River Watershed
(Provided for reference because Present Owner field is blank in the
Comprehensive List of Water Rights in Shasta River Watershed.)**

This list of water rights on Julian, Willow, and Yreka Creeks is provided for water rights with a blank Present Owner field to assist with the identification of water rights covered by Order WR 2022-0167-DWR issued for the Shasta River watershed. Water rights are listed in order of their "SG" number in the "Water Right ID" column.

Water Right ID	Present Owner	Decreed	Source	Creek	Summer Right (CFS)	Winter Right (CFS)	Paragraph Number	Priority Date
