INITIAL STATEMENT OF WATER DIVERSION AND USE

NOTE: A Statement is not a Water Right
 This Statement should be typewritten or legibly written in ink and submitted to the address above.
 A separate statement must be filed for each point of diversion.

An (*) indicates a required section. Required sections must be completed for the Statement to be accepted.

***B.** Water is diverted and used under the claim of: Riparian claim Pre 1914 claim Court Decree No _____
 Other (explain): _____

***C.** Name of the body of water at the point of diversion
MISSION CREEK
 Tributary to **COLUMBIA DRAIN**

***D.** Point of diversion is located within **GLENN** County on Assessor's Parcel No. **020-220-001-9**
 being within the **SE** 1/4 of **SE** 1/4 of Section **18**, of Township **20N**, Range **3W**, **MD** B&M.
 Provide the location of the point of diversion using the California Coordinate System (NAD 1983) or Latitude / Longitude measurements.

Identify the point of diversion and outline the place of use on a United States Geological Survey (USGS) topographic map and submit the map with the Statement.

Name of the diversion works is _____ Related Water Right(s) _____

E. Do you own the land at the point of diversion? Yes No If No, please provide the name and address of the land owner at the point of diversion: _____

***F.** Capacity of diversion works **6** (cfs, gpm, or gpd) Capacity of storage tanks or reservoir _____ (gallons or acre-feet)
 Type of diversion facility: Gravity _____ Creek Pump Well Pump _____
 Method of measurement: Weir _____ Flume _____ In line flow meter _____ Electric Meter _____ Estimate

NOTE: * Monthly report below is optional until January 1, 2012, at which time the information becomes mandatory.

*Provide the maximum rate of diversion achieved in each month in the table below as measured in: cfs ____, gpm ____, or gpd ____

Year	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec

Additional copies of this form and water right information can be obtained at www.waterboards.ca.gov/waterright

S023092

*G. Provide the quantity of water diverted each month in the table below as measured in: Gallons ___ Million gallons ___ Acre-feet ___

Year	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec	Total Annual

H. Annual water use in recent years: Maximum _____ (gallons or acre-feet) Minimum _____ (gallons or acre-feet)

State the year of first use at diversion site or storage facility 1985

*I. Beneficial water use is for: (example, number of acres and type of crop irrigated, average number of persons served, number of stock watered, etc.) _____

*J. General description and location of the place of use shall be identified using a USGS topographic map, or if assigned, may be provided using the public land description to the nearest 40 acre parcel accompanied by the County Assessor's parcel map.

K. Please answer only those questions below that are applicable to your project.

1. Conservation of water
 - a. Describe any water conservation efforts you have in place SUMP, RETURN WATER SYSTEM
2. Water quality and wastewater reclamation
 - a. Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree that unreasonably affects such water for other beneficial uses? YES ___ NO ___
3. Conjunctive use of surface water and groundwater
 - a. Are you using groundwater in lieu of surface water? YES ___ NO ___

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to 1) store water for later use 2) divert water which originates in a different watershed 3) divert water released from storage, or 4) divert return flows from groundwater use.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. After the formation of the California Water Commission in December 1914, new appropriators have been required to obtain a permit or license from the State.

Statements of Water Diversion and Use must be filed by a riparian and/or pre-1914 appropriative water user. The filing of a statement 1) provides a record of water use, 2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and 3) assists the State in determining if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please visit the website http://www.waterboards.ca.gov/waterrights/water_issues/programs/diversion_use/, or write to this office.

DEFICIENCY IN STATEMENT OF WATER DIVERSION AND USE
DIVERSIONS FROM White Cabin Creek-Sheep Corral Creek and Wilson Creek
DIVERSION WORKS NAMES Unknown

The State Water Resources Control Board, Division of Water Rights (Division), received your Statements of Water Diversion and Use (Statements) on 7/6/2010. Your Statements have not been assigned an identification number because of incomplete information.

Division staff reviewed the content of your Statements and found the following item(s) inadequate to address statutory requirements. Please complete the missing information on the enclosed returned Statement forms. Resubmit the original Statement form to the Division and retain a copy for your records.

	The proper form was not used. Please complete and submit the enclosed Statement form.
	NAME AND ADDRESS: Provide the name, mailing address, and telephone number of the diverter and of the person filing the Statement if different than the diverter.
	WATER USE CLAIM TYPE: Identify the type of water use using the following categories: <u>Riparian claim.</u> The riparian claim exists by reason of ownership of land abutting a stream or body of water and affords no basis to use water upon non-riparian land. <u>Pre-1914 Appropriative Right.</u> Once acquired, an appropriative right can be maintained only by continuous use. The rate of diversion, diversion season and storage quantity cannot be increased over that established prior to the formation of the California Water Commission (December 1914). <u>Other.</u> Describe in space provided on Statement form.
	SOURCE: Identify the name of the stream or other source from which water is diverted, and the name of the next major stream or other body of water to which the source is tributary.
	POINT OF DIVERSION (POD): Identify the quarter-quarter section, Section, Township, and Range of your POD. Provide the Assessor's Parcel Number if known. <input checked="" type="checkbox"/> Latitude / Longitude measurements were inaccurately reported. Please review and correct the location of the POD. <input type="checkbox"/> Only one POD is allowed per Statement; the Statement submitted contains multiple PODs. Please submit a separate Statement of Diversion and Use for each POD.
	OWNERSHIP OF LAND AT THE POINT OF DIVERSION: If you do not own the land at the POD, list the name and mailing address of the landowner.

Deficiency in Statement of Water Diversion and Use
Page 2

	CAPACITY OF DIVERSION: List the rate of diversion in cubic feet per second, gallons per minute, or gallons per day. Describe your diversion and identify whether water is pumped or flows by gravity. If you have a pre-1914 claim and have a storage reservoir, specify the capacity.
X	ANNUAL USE OF WATER: Provide the maximum and minimum amount of water used annually in gallons or acre-feet. Identify the first year of diversion and use.
X	PURPOSE OF USE: Identify the type of water use whether for domestic, irrigation, stockwatering or other purposes. If water is used for domestic or municipal purposes, identify the population served. If water is used for irrigation, provide the acreage. If water is used for stockwatering, identify the type and number of stock.
X	PLACE OF USE (POU): Describe the location of the place of water use.
X	MAP: The location of your POD must be pinpointed using the California Coordinate System (NAD 1983) or latitude/longitude measurements and the POU must be outlined on a USGS map ¹ as described in the Water Code section 5103 (c). Attach the map to the Statement and return. <input checked="" type="checkbox"/> The map submitted is inadequate for the purposes of identifying the POU. Highlight the POU on a USGS topographic map or a public land description parcel map.
	SIGNATURE AND DATE: The form was not signed and/or dated. Complete and return the enclosed form with a signature and/or date. <input type="checkbox"/> Submitted forms must contain original signatures. Fax or electronic copies will not be accepted. Please sign and return the enclosed form with a signature and date.
	OTHER:

The items on your Statements, as identified above, must be clarified and/or amended and submitted to the Division for proper processing of your Statements. If the Division does not receive the requested information within 60 days from the date of this letter, your Statements will be considered incomplete.

Supplemental Statements of Water Diversion and Use (Supplemental Statement) will be mailed to you every three years, and must be filed with the Division prior to July 1 of that year. There is no fee for filing a Supplemental Statement. The submittal of a Supplemental Statement is a record of your water use. It is used by the Division to verify existing data and to notify you of water right matters related to your claim.

If you have questions, please contact the Division at (916) 341-5431, or at Rrinker@waterboards.ca.gov.

Sincerely,

Robert Rinker, Manager
Fee and Data Management Unit

¹ USGS topographic maps are available through a mapping service at: <http://www.topozone.com>, and at the Division.
