State Water Resources Control Board Members  
c/o Jeanine Townsend, Clerk to the Board  
State Water Resources Control Board  
1001 I Street, 24th Floor  
Sacramento, CA 95812-2000

RE: Petition: Restore the Lifeblood of the San Francisco Bay: End the man-made drought in the Bay-Delta

Dear State Water Board members:

On behalf of the SalmonAID foundation and, in particular, SalmonAID member organization Food and Water Watch, I am pleased to submit the attached 4,123 signatures calling for the State Board to allocate more fresh water to improve flow conditions on the San Joaquin River.

SalmonAID is a coalition across the Pacific Coast of North America of commercial, sport, and tribal fishing organizations, conservation and consumer groups, restaurants and fish sellers. I am a member of the SalmonAID Board of Directors, and an attorney with the Golden Gate Salmon Association. Other SalmonAID member organizations include the Pacific Coast Federation of Fishermen's Associations, Natural Resources Defense Council, Small Boat Commercial Fishermen's Association, Tuolumne River Trust, The Bay Institute, Trout Unlimited, Fish or Cut Bait, and more than a dozen others.

We all volunteer our time to educate the public through media coverage and our events, such as the annual Dine out for Wild Salmon in San Francisco, to help people grasp the importance of functioning rivers, streams and estuaries and the need to protect and restore them. The San Joaquin River, the lifeblood of the San Francisco Bay, has some of California's most important salmon and steelhead spawning grounds. Restoration of fish-friendly flows could help recover many commercially and recreationally important fisheries, and the jobs that come with them.

Commercial fishermen, conservationists, recreational fishermen, and Native American do not always agree, but we are united in the importance of San Joaquin River restoration.

Sincerely,

Kalla Hirschbein  
SalmonAID Board Member

Restore the Lifeblood of the San Francisco Bay: End the man-made drought in the Bay-Delta

To: California's State Water Resources Control Board

I urge you to protect and restore our fisheries and the Bay-Delta ecosystem by requiring San Joaquin River inflow to the Bay-Delta close to the 60% of runoff that the Board has determined would be fully protective of these precious and irreplaceable resources.

I understand that restoring freshwater flows to protect the public trust will require significant water conservation measures by all those who rely on water exports. By signing below, I promise to do my part to use less water.

I ask you to protect the public trust and ensure that all water users in the state are meeting the highest standard for efficient water use, conservation, recycling, and reuse. There is truly enough water for all, if we use this precious resource wisely.

Sincerely,
