

It is time for someone to let you folks know that the water belongs to our citizens. We are an agriculture area of the country. We do not have Hollywood movie stars, we don't have high tech chip factories, so water is our Hollywood, and our Silicon Valley. Water is what keeps the central valley alive, and also maybe remind you of the products that reaps because of the water. So get your head out of it, and stop exporting our water. NOW!!!!!!
