

To: Jeanine Townsend, Clerk to the Board, State Water Resources Control Board.

I am very concerned about the latest information indicating that salinity may be increased in the South Delta. Delta farmers need less salt, not more. In August, 2010, the State Water Board's own Delta Flows report recommended more fresh water for the Delta. Delta farmers have senior water rights and should not be sacrificed to benefit south San Joaquin Valley farmers who have junior water rights and are farming in a desert. We need MORE fresh water released into the San Joaquin River. Thank you.
