

I highly object to the redirection of the Valley's water into the Delta and other areas. As far as my understanding of the action, it would severely jeopardize our agricultural community that depends on the water flow. I realize the need for water for Southern California, but there are other alternatives to your action. I can also appreciate the desire to protect the fish in the Delta, but the I believe that agriculture should take priority. Feeding people is more important than fish. Please reconsider your action.

Thank You,  
Randy Blackwood
