Subject: Updated Projected Diversions for Feather River Diverters

John,

As we have discussed the Joint Water Districts Board and Western Canal Water District are subject to the SWRCB's February 4, 2015 Informational Order (Order). Based on the terms of their Settlement Agreements with the Department of Water Resources (Department) both Districts assumed they would have full water supplies under those Agreements in 2015 when they submitted information regarding their projected 2015 diversions as required under the Order. On April 8, 2015 the Districts were officially informed that, based on the forecasts contained in the Department's April 1, 2015 Bulletin 120, they would receive only 50% supplies under the Settlement Agreements. This email is being sent on behalf of the Joint Water Districts Board and Western Canal Water District to provide revised Projected 2015 diversions for the remainder of the year.

Statement of Water Diversion and Use No. S000480

Joint Water Districts Board

Revised

2015 Projection

Diversions (AF)

May	81,075
Jun	53,571
Jul	68,054
Aug	55,311
Sep	22,881
Oct	18,796
Nov	45,500

Dec 33,800

Statement of Water Diversion and Use No. S000925

Western Canal Water District

Revised
2015 Projection
Diversion (AF)

May	52,000
Jun	50,000
Jul	54,000
Aug	32,000
Sep	9,000
Oct	15,000
Nov	10,000
Dec	5,000

Please note that Water Canal WD participated in a water transfer involving crop idling in 2014. They do not intend to transfer water in 2015 however a similar acreage will be idled do the reduction in the water supply under their Agreement with the Department. Therefore, the May – October projections are similar to 2014 diversions.

Please contact the Districts or me if you have any questions.

Joint Water Districts Board – Donnie Stinnett 530-846-3307
Western Canal Water District – Ted Trimble 530-342-5308
