Complaint Marked Related To: Water

Date of Occurrence: 03/27/15    Time: 9:15 AM    Ongoing: Unknown

### Complaint Description:

The City of Tracy, at its City Council meeting of March 3, 2015, approved entering into a contract to sell treated waste water discharged from its water treatment facility into Old River to the Westside Irrigation District commencing April 1, 2015. It is my understanding that the City of Tracy has not applied to the State Water Resources Control Board to obtain the SWRCB's consent to the proposed sale of the treated waste water to Westside Irrigation District as mandated by Water Code Section 1211. This therefore appears to be an illegal diversion of water. Since the sale of water is to commence on April 1, 2015, time is of the essence in this matter.
