

[SUMMARY OF FINAL SUBMITTED VERSION]

SUPPLEMENTAL STATEMENT OF WATER DIVERSION AND USE FOR 2013

Primary Owner: ARCH J CAMPBELL
 Statement Number: S014983
 Date Submitted: 2014-02-26

1. Water is used under	Riparian Claim Pre-1914 Claim Other: app11902,Permit8254,License 6553
2. Year of first use	1863

3-4. Maximum Rate of Diversion for each Month and Amount of Water Diverted and Used			
Month	Rate of diversion	Amount directly diverted or collected to storage (Acre-Feet)	Amount beneficially used (Acre-Feet)
January		0	0
February		0	0
March		0	0
April		273.7	273.7
May		821.2	821.2
June		821.2	821.2
July		821.2	821.2
August		273.7	273.7
September		273.7	273.7
October		0	0
November		0	0
December		0	0
Total		3284.7	3284.7
Comments	Gravity fed north to south flow, 2047, pumped into our recirculation ditches to flood fields, gravity to further south for recycling...		

5. Water Diversion Measurement	
a. Measurement	Direct measurement using a device listed in Section 1 is "not locally cost effective" for water directly diverted and/or diverted to storage
b. Types of measuring devices used	
Additional technology used	
c. Description of additional technology used	
d. Who installed your measuring device(s)	
e. Make, model number, and last calibration date of your measuring device(s)	
f. Why direct measurement using a device listed in Section 1 is "not locally cost effective"	Other
Explanation of why use of devices and technologies listed in Section 1 are "not locally cost effective"	gravity flow N to S, 2047, pumped into our In HOUSE recirculation system onto LASER LEVELED LAND, then gravity flow south and on.

**WSID CDO/BBID ACL
WSID0067**

g.	Method(s) used as an alternative to direct measurement	Crop duty estimates/consumptive use estimates Electricity records dedicated to the pump
	Explanation of method(s) used as an alternative to direct measurement	pumped from 2047 Drain to IN-HOUSE recirculation ditches, gravity flow to fields, from recirculation ditches to the 2047 and south and next farm/ranch.

6. Purpose of Use	
Irrigation	467.2 Acres

7. Changes in Method of Diversion	

8. Conservation of Water		
a.	Are you now employing water conservation efforts?	Yes
a.	Describe any water conservation efforts you have initiated	IN-HOUSE recirculation ditches, gravity flow to fields, from recirculation ditch to the south and next farm/ranch.
b.	Amount of water conserved	Acre-Feet
	I have data to support the above surface water use reductions due to conservation efforts.	

9. Water Quality and Wastewater Reclamation		
a.	Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility, or water polluted by waste to a degree which unreasonably affects such water for other beneficial causes?	No
b.	Amount of reduced diversion	
	Type of substitute water supply	
	Amount of substitute water supply used	
	I have data to support the above surface water use reductions due to the use of a substitute water supply	

10. Conjunctive Use of Surface Water and Groundwater		
a.	Are you now using groundwater in lieu of surface water?	No
b.	Amount of groundwater used	
	I have data to support the above surface water use reductions due to the use of groundwater.	

11a. Additional Remarks
