EDUCATION Master of Science in Hydrology, University of Alaska-Fairbanks, September 1986.

Master of Science in Urban Planning, University of Arizona, September 1974.

Bachelor of Arts, *cum laude*, Baldwin-Wallace College, Berea, Ohio, June 1969.

EXPERIENCE Water Supply Manager, City of Santa Barbara, California, from August 1990 to present. Responsible for developing, directing, and implementing water supply and water conservation programs consistent with the City's Long-Term Water Supply Program, prepared under my direction in 1991-93. Experienced with the Santa Ynez River Hydrology Model, City of Santa Barbara Multiple Objectives Optimization Model, and studies administrator of fish, vegetation, and groundwater studies for the Santa Ynez River, working with other Cachuma Project Member Units. Participant in Santa Ynez River Water Rights Settlement Agreement and other negotiations, discussions, and technical studies on Santa Ynez River water rights. Responsible for implementation of the Upper Santa Ynez River Operations Agreement. Public Works Department lead for City's Creek Water Quality Improvement Program and NPDES Municipal Storm Water Permit. Emergency Operations Center Manager for City's emergency response effort.

Executive Director, Regional Water Planning and Advisory Board of Washoe County, Nevada, from April 1988 to August 1990. Responsibilities of the Water Board included development of a regional water resources plan, water conservation programs, identifying potential water supplies, advising local governments, and providing information to the public regarding regional water resources.

Hydrologist with the Alaska Division of Geological and Geophysical Surveys in Fairbanks, Alaska, March 1983 to March 1988. Duties included hydrological and water quality data collection support for mining studies, supervision of water quality lab, water resources surveys of agricultural areas, flood and water supply modeling and water well level monitoring.

Natural Resources Manager and Water Resources Planner for Alaska Division of Land and Water Management in Fairbanks and Anchorage, July 1978 to February 1983. Responsible for water rights adjudication staff and water resources planning for northern Alaska and State Water Resources Board meetings, among other duties.

U.S. Peace Corps volunteer as a Regional Planner for the Plan and Budget Office, an agency of the Iranian government, in Yazd, Iran, October 1974 to May 1976.

Veteran of U.S. Army, 1969-1971.
