**Subject:** Water Rationing

Dear Water Resources Control Board

I feel that water conservation would be detrimental to our area and our health. This water rationing is unnecessary and punitive. Our area is the best in the state for already conserving water. This community has already reduced it's water consumption to 75 gallons per day per person which is one of the lowest use rates in the state. More water rationing would destroy the quality of life for our area and the local economy as well. Please "Do Not" ration our water any further. Thank you, Alyce McNickle, Pacific Grove Resident
