Subject: The Monterey Peninsula does not deserve to have any more waterrationing

Please do not bring our economy to a halt by rationing our water supply. We have conserved more water on the Monterey Peninsula than most communities. You would bring our economy to a halt when we are already hurting!

What we have is a water storage problem. When we have a good rainfall, the water runs out to the ocean!

I urge you to not implement any cut-backs in our water supply.
