Subject: Water Use

Dear Sir/Madam:

I'm writing in response to the State asking more from water users.

I feel that in these uncertain economic times, include when we state workers are being furloughed, asking us to also give up more water is criminal. I have a garden which feeds my family fresh fruit and vegetables. Eliminating outdoor water use would be a hardship. You've already taken 10% of my pay what more can I give the state?

Please don't change anything during these uncertain economic times.

We are suffering enough already

W Nichols
