---

Dear Sir/Madam:

I am writing you to ask you NOT to adopt the CDO currently being considered. It is our opinion that adopting this order will crush our regional economy. We are of the opinion that the Peninsula has the political will to pursue and accomplish a regional water supply project by 2012. The hospitality industry establishments and local residents have accomplished tremendous water use savings over the last decade; there simply is not much more we can do for water conservation.

Respectfully

**Steve Henry**
