July 5, 2011

To Whom it may concern;

I, Chris Arcoleo, have been a lifetime Steelhead fisherman on the Monterey Peninsula for over 50 years. I have watched the Carmel, Little Sur, and the Big Sur Rivers lose their water flow due to the population growth and agriculture needs. It has taken a huge toll on the Steelhead Fishery. The Big Sur Rivers is still one of the most beautiful rivers with a small run of Steelhead. Please don't allow this use of water. It will destroy the Steelhead population what few that are left.

Sincerely,

Chris Arcoleo
