Dear Carmel River Steelhead Association,

When it was legal to fish and retain the fish from the Big Sur River I Bill Neidinger caught mature Salmon from the end of August to mid October. The male or Bucks had sperm sacks and the female or Hen's had large eggs/roe in her.

This statement is true and correct. I have photos in my possession to confirm my statement.

I hope this letter helps in maintaining a healthy fishery in the Big Sur River.

Sincerely, 

Bill Neidinger
