To Whom It May Concern:

I have fished the Big Sur River for Steelhead since 1973. I used to fish it with a number of friends. The fish population has been falling since the late 1980's and now is so low that the last three years I have not seen a fish or seen one caught. In fact, I rarely ever see another fisherman on the Big Sur River. There are some real problems with the Steelhead population down there.

Sincerely,

A handwritten signature in black ink that reads "Roy L. Thomas D.D.S." with a stylized flourish at the end.

Roy L. Thomas, D.D.S.
