TO: Wayne C. Smith
Permit and Licensing Unit
Division of Water Rights
State Water Resources Control Board

Exhibit 25 DATE: 12-13-00

WCS
26305

File # A 26306 and

SUBJECT: *A 26307*

FROM: Kayl Glyn Echols *KGE*
Supervising Watermaster
Northern District
Department of Water Resources

Early Season Diversion Measurement
Permit #19163, 19164, and 19165

This memo is in response to our phone conversations of 10/20/00 and 12/12/00. The diversions for the above referenced Permits will be monitored and regulated by our office during the watermaster service season, usually between 4/1 and 9/30. Before 4/1 of each year, the permittee, Emerson Investments, will contact our office prior to when they desire begin diversions. The Shasta River Watermaster will install and calibrate a stage recorder at the parshall flumes to record diverted flows.

Cc: Keith Dick
Pete Scala

This memo is in response to my phone calls asking about measuring diversions under permits 19164 and 19165 which occur prior to watermaster service. See Mr Echols letter dated 10-17-00. No reply necessary.
