

**[SUMMARY OF FINAL SUBMITTED VERSION]**

WR-18

**SUPPLEMENTAL STATEMENT OF WATER DIVERSION AND USE FOR 2013**

Primary Owner: Flocchini Estate, LLC  
 Statement Number: S022317  
 Date Submitted: 2014-06-02

1. Water is used under	Other: Agriculture
2. Year of first use	1951

3-4. Maximum Rate of Diversion for each Month and Amount of Water Diverted and Used			
Month	Rate of diversion	Amount directly diverted or collected to storage (Acre-Feet)	Amount beneficially used (Acre-Feet)
January		3.44	3.44
February		3.44	3.44
March		0	0
April		0	0
May		0	0
June		0	0
July		0	0
August		0	0
September		0	0
October		0	0
November		2.75	2.75
December		2.75	2.75
Total		12.38	12.38
Comments			

5. Water Diversion Measurement		
a. Measurement	Direct measurement using a device listed in Section 1 is "not locally cost effective" for water directly diverted and/or diverted to storage	
b. Types of measuring devices used		
Additional technology used		
c. Description of additional technology used		
d. Who installed your measuring device(s)		
e. Make, model number, and last calibration date of your measuring device(s)		
f. Why direct measurement using a device listed in Section 1 is "not locally cost effective"	Other	
Explanation of why use of devices and technologies listed in Section 1 are "not locally cost effective"	Due to the fact that the pond is fed by natural runoff there is no cost effective way to measure the total amount of water diverted using a device. With the full capacity of the pond being 13.75 acre feet the total diversion at a maximum can only be 13.75 acre feet.	

g.	Method(s) used as an alternative to direct measurement	Other
	Explanation of method(s) used as an alternative to direct measurement	The pond topographic map was used to determine the total capacity of the pond and therefore the total amount of water diverted. The topographic map was surveyed by Kelder Engineering.

### 6. Purpose of Use

Irrigation	26 Acres
------------	----------

### 7. Changes In Method of Diversion

--

### 8. Conservation of Water

a.	Are you now employing water conservation efforts?	No
	Describe any water conservation efforts you have initiated	
b.	Amount of water conserved	Acre-Feet
	I have data to support the above surface water use reductions due to conservation efforts.	

### 9. Water Quality and Wastewater Reclamation

a.	Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility, or water polluted by waste to a degree which unreasonably affects such water for other beneficial causes?	No
	Amount of reduced diversion	
b.	Type of substitute water supply	
	Amount of substitute water supply used	
	I have data to support the above surface water use reductions due to the use of a substitute water supply	

### 10. Conjunctive Use of Surface Water and Groundwater

a.	Are you now using groundwater in lieu of surface water?	No
	Amount of groundwater used	
b.	I have data to support the above surface water use reductions due to the use of groundwater.	

### 11a. Additional Remarks
