- ABSTRACT:** The January 1993 Regional Growth Management Strategy was prepared by SANDAG staff and the Regional Growth Management Technical Committee. The Strategy takes a quality of life approach to growth management, and contains standards and objectives and recommended actions for nine quality of life factors: air quality, transportation/congestion management, water, sewage disposal, sensitive lands and open space preservation and protection, solid waste management, hazardous waste management, housing, and economic prosperity. Recommendations regarding public facilities financing and siting, and growth rate, phasing and land use distribution are also included. The Strategy also contains a self-certification process for determining local and regional agency consistency.
