---

1. We agree with staff's finding that there is water available for the Kern River.
- 2, We support the City of Bakersfield's application to run available water down the riverbed.
- 3, Running water in the riverbed will help replenish the aquifer, restore the natural environment and provide recreation/tourism to Kern County.

Save the people!!! Save the farmers and the economy!! Worry about the fish and the people of San Francisco later for a change!!!

We need water and farming restored!! We get most all our oil from foreign countries and now, because of no water, our food!!!! Restore the riverbed and the USA!!!!
