

2/16/10 Bd Mtg.
Kern River
Deadline: 2/9/10 by 12 noon

Jan. 31, 2010

Dear State Water Resources Control board,

I am writing to you in regard to the unappropriated water for the "Kern River". That river runs through our city of Bakersfield.

Our local newspaper reported that the public can comment on the use of the water. If there is water available, we should have some of it.

That water needs to flow through our city in the riverbed! Especially in the summer months. It is extremely hot.

Everyone loves going to the river to cool off and it beautifies our city so much.

Please consider our comments.

Thank you,

Kim Wold

Plants and beauty grows
Where the water flows!
