

State Water Resources Control Board
P.O. Box 100
Sacramento, CA 95812-0100

2/2/10

To whom it may concern:

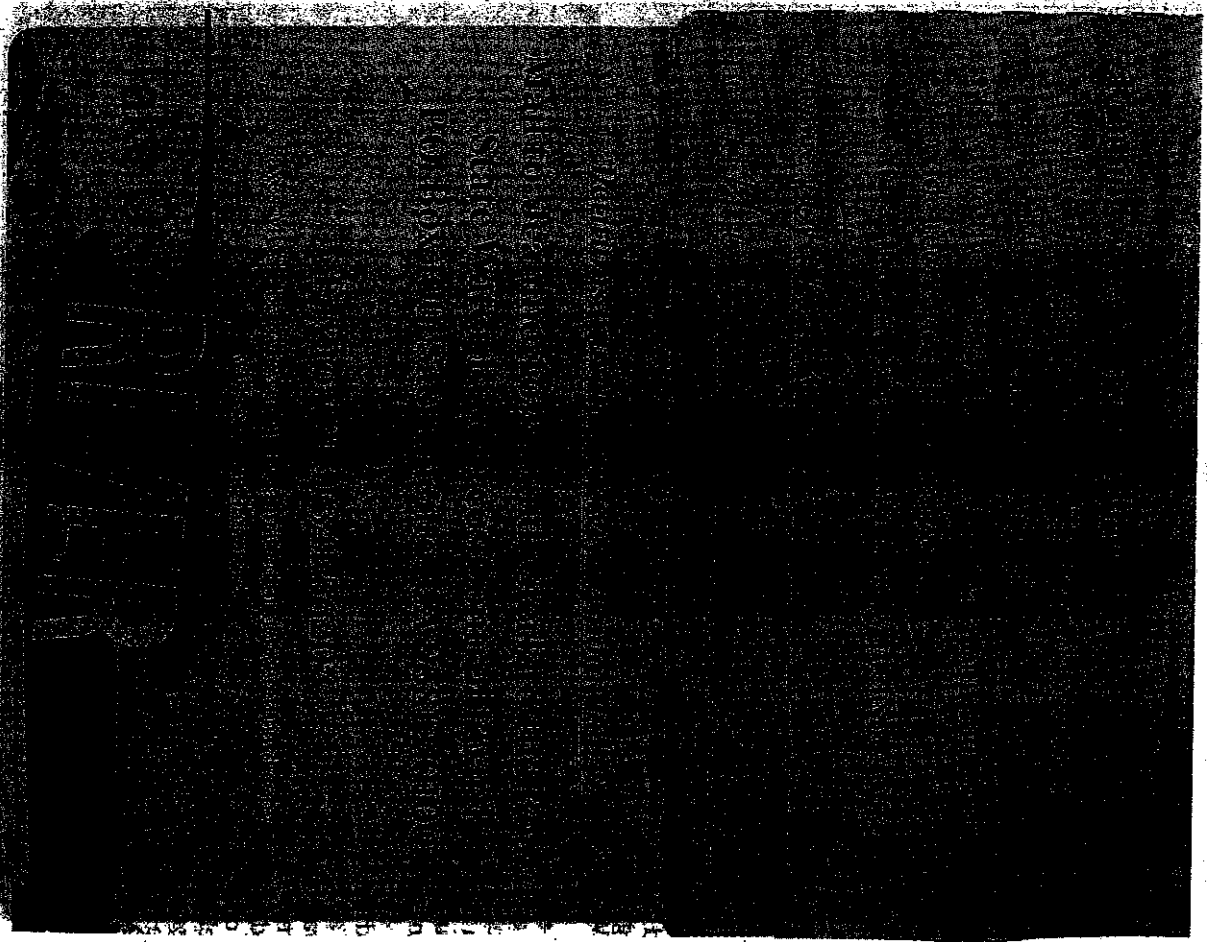

I am not normally a person who gets involved with these types of activities, but the dry riverbed running through my adopted home town disturbs me.

I am dumbfounded that water can be taken away from a river for other uses. I have never seen this in any other town. Sacramento, Fresno, Kingsburg - they are all valley farming areas - with actual rivers running through their towns. Bakersfield needs the river!

Thank you,

Patricia J. Ebel
