To the California State Water Resources Control Board:

My name is Mr. Rene M. Lopez, and I am writing to the Board in regards of supporting the recommended order finding unappropriated water on the Kern River and having it run through the dry riverbed here in Bakersfield. I find that having water running through the riverbed will increase the quality of life around the river, not only for people, but for wildlife as well. All around, I would like to see something come out of this that would be highly beneficial to everybody and all wildlife, as I stated. Please consider the order on having the unappropriated water start running through the dry riverbed here in Bakersfield. Thank you.

Sincerely,

Mr. Rene M. Lopez
