I agree with the staffs findings that there is water available for the Kern River, I support the City of Bakersfield application to run available water down the riverbed. Not only will it replenish the aquifer and restore the natural environment but it will bring back the beauty of the river and provide recreation. I remember as a child playing in the river by Beach Park my brother and I had so much fun with our parents. I would once again like to enjoy that but now it would be with my children and grandchildren. PLEASE BRING THE KERN RIVER BACK.
