APPLICATION NO. \_\_\_\_\_ PERMIT NO. \_\_\_\_\_ LICENSE NO. 000 659

The following information will aid in the environmental review of your petition as required by the California Environmental Quality Act (CEQA). IN ORDER FOR YOUR PETITION TO BE ACCEPTED AS COMPLETE, ANSWERS TO THE QUESTIONS LISTED BELOW MUST BE COMPLETED TO THE BEST OF YOUR ABILITY. Failure to answer all questions may result in your petition being returned to you, causing delays in processing. If you need more space, attach additional sheets. Additional information may be required from you to amplify further or clarify the information requested in this form. If form WR 1-2 was completed during the application process describe the differences between those conditions and the present conditions.

DESCRIPTION OF CHANGES TO PROJECT

1. Provide a brief description of the proposed changes to your project (CHANGES), including but not limited to type of construction activity, structures existing or to be built, area to be graded or excavated and operational changes.

The request is mainly to change the use from agricultural designation to commercial designation. Commercial designation would provide the opportunity to use the water for drinking through a bottling system or other types of marketing the water. Part of the water is already used for drinking and commercial use by the community of Cabazon Water District. There has never been, nor presently is there any agricultural activities that this water can be used for. There are no proposed structures of any facilities to be built at this time. Also there is no grading or excavation that would be needed.

Subject: Cabazon/Millard Canyon Property

Dear Mr. Canaday:

Enclosed please find our Petition For Change.

As stated in our application, we have some water rights designated for agricultural use. At the present time, the water is being completely wasted and runs down along Millard Canyon. Our intention is to make use of this water for drinking purposes through bottling or some other method.

This water has been tested by the Cabazon Water District and is known to be one of the best drinking waters in existence.

Please review the attached documents and inform us of any additional information that you may need.

Thank you very much in advance for your anticipated cooperation and help.

Sincerely,

Mozafar "Mo" Behzad
