PROGRESS REPORT BY PERMITTEE

1944 OCT 14 AM 9-06

This report is of importance to you in establishing your water right. It will be used as a basis for action by the Division of Water Resources. It should therefore be filled out carefully and returned promptly.

Please bear in mind that neither the filing of an application nor the approval thereof constitutes a water right. Beneficial use alone establishes the right. When you have used the greatest amount of water you ultimately expect to use, and use has been made over the full period of the year intended, an inspection will be made and license will be issued confirming your right to the water theretofore actually put to beneficial use.

If the time allowed in your permit within which to complete either construction or beneficial use has expired and additional time is required an extension may be allowed upon a showing of good cause, which showing should include a description of the further development proposed and indicate the probable date of completion. Lack of funds can not be accepted as good cause for failure to complete. The reverse side of this sheet may be used if the spaces provided are inadequate.

APPLICATION 9247 PERMIT 5392 SOURCE Independence Lake

1. Name of present holder of permit SIERRA PACIFIC POWER COMPANY
Address 21 East First Street, Reno, Nevada.

2. Has the project been abandoned? No 3. Is construction complete? Yes.

4. If construction is *incomplete* describe the additional works required in order to use the full quantity of water proposed.

5. If additional construction is required please indicate date when it will be complete.

6. Describe any construction work done during the past 12 months and state the estimated cost including labor.
None

7. Has use of water commenced? Yes. If so, describe use made during the past 12 months. To augment and regulate the flow of the Truckee River and provide additional water for domestic purposes.

8. During which months was water used? August, September, October, November, December 1943.

9. Will water be used during any other months? May be used at any time, depending upon water supply.

10. Have you used as much water as you expect to use under this permit? No
If not, when will such use be full and complete? Depends on condition of water supply from other sources and upon demands.

11. Neither the intake nor the place of use described in the permit should be changed without petition. Appropriate blanks will be sent upon request.

NOTE

The space below may be used for describing in greater detail progress which has already been made toward completion of the project and plans for further development. Particularly if the time heretofore allowed for completion of either construction or use has expired and further time is needed, the causes of failure to complete should be stated and an estimate given of additional time required.

Water was released from Independence Lake during August, September, October, November and early part of December, 1943. This water was passed directly through Boca Reservoir without re-storing and diverted from Truckee River at points down stream.

The total amount of Independence water used for domestic purposes since 1939 when construction was started, and prior to January 1, 1944, is approximately 11,130 A.F.

DO NOT WRITE IN THIS SPACE
