MEMORANDUM

TO: Peter G. Morros

FROM: R. Michael Turnipseed

SUBJECT: U.S.D.I. Bureau of Reclamation Pending Applications

The Carson and Truckee Rivers have a number of outstanding applications to appropriate water for various purposes by the subject applicant. The recent hearing on the unappropriated waters of the Truckee River did not include the applications filed by the Bureau of Reclamation for the BOR's Washoe Project which includes applicatiuons on the Truckee River and protested applications on the Carson River.

In light of the recent negotiations on the Truckee River and the protested applications on the Carson River's portion of the proposed Washoe Project, one immediate resolution would be to see if the BOR would withdraw their applications to alleviate any further litigation concerning the two rivers. Attached is a summary of the pending applications for your convenience.
