re: comment letter - AB 2121 policy

I am a landowner in Sonoma County and the proposed policy will directly impact me and the farming interests of my family/business. I believe this policy does not provide a balance to the competing needs for water as it fails to weigh the many benefits derived from the agricultural, domestic, and industrial uses of water. It is my belief that the State Water Board should concentrate on fixing the water rights process. I feel applicants deserve clear and effective guidance as to how to obtain a water right permit. The Draft Policy should be rejected and replaced with one that balances economic interests and environmental protection. Thank you for allowing me to express my opinion on this very important subject matter.

sincerely,
chris london
