To: SWRCB

Subject: COMMENT LETTER AB2121 POLICY

The proposed AB2121 policy of the Gualala river is not acceptable to ordinary people who live here.

The proposed measures would impact in a very negative way the environment and economy of our coastal communities (Gualala and The Sea Ranch). It is imperative that you revise proposed policies and consider the economic impact on current water users. As a rural community, we rely on water to live.

In fairness to the people that live and work here, we urge the SWRCB to hold regional hearings on the Coast with the RWQCB.

To accomodate this we urge the SWRCB to postpone the closure of public comments from March 26 to June 26, and ask that you postpone the Public hearing on April 27 to a future time.

Sincerely,

Bob and Mary Kadarach
290 Del Mar Point
The Sea Ranch 95497
