Subject: COMMENT LETTER AB2121 POLICY

To Whom It May Concern;

As a resident along the Sonoma Coast whose house water comes from the Gualala River, I urge you to reconsider the blanket one-size-fits-all policy intended to enhance instream flows in the north coast region. I also urge you to extend the comment period on this policy.

I believe that the proposed policy should be revised to require that the economic and other impacts to current water users be taken into account. The policy should be evaluated by including burden as well as benefit. Further, the policy should employ science that addresses conditions like those found on the South Fork Gualala River.

With kind regards,

Jane Schuler-Repp
