**COMMENT LETTER - AB2121 POLICY:**

The adoption of this policy would deprive those of us who live at The Sea Ranch of a sufficient supply of water to sustain our community.

We are voters.

We pay real estate taxes in Sonoma County.

Without adequate water in the community, our property values would plummet. Sonoma County would not be able to collect the real estate taxes at their present volume.

And that's just the beginning.

This project needs greater in-depth study.

Please extend the comment period for 90 days and hold the hearing in a venue which makes it possible for citizens of the North Coast to attend and be heard.

Thank you for your attention to this matter.

Joanna Barnes (Sea Ranch property owner & full time resident)
